

# Our partnership with CoreLogic RP Data

## Daniela Mitkoy

Advisor

ProSolution Credit Advisory

Daniela Mitkoy is an advisor with ProSolution Credit Advisory, having joined the company in 2007. She has been using CoreLogic RP Data within the business for more than a year and says that it *“has most certainly become an invaluable tool”*.

Located in the Melbourne CBD and with a serviced office in Sydney, ProSolution has over ten employees in both locations. ProSolution has been operating since November 2002 and whilst they have won a number of awards since its formation, their proudest achievement is their unwavering commitment to maintaining the highest quality of advice.

The team at Pro Solution pride themselves on being niche brokers whose clients are property investors, medical practitioners and dentists. With four main service advice lines: financial insurance, credit (mortgage) and accounting/tax, Daniela comments that ProSolution uses CoreLogic RP Data *“to allow our clients to make informed financial decisions”*.

On a daily basis Daniela uses CoreLogic RP Data for the preparation of Comparative Market Analysis (CMA) reports for clients who have finance pre-approval to buy a new home or investment property. She also finds the property database very useful and informative for clients who are attending upcoming auctions.

When it comes to growing a protecting her loan book, Daniela uses CoreLogic RP Data to monitor when existing clients put their investment or home on the market for sale. Once alerted, Daniela contacts her clients to offer her assistance with important financial decisions.

CoreLogic RP Data’s extensive functionality has enabled Daniela to address client needs, and she notes that: *“CoreLogic RP Data’s capabilities, ranging from property reports to sales activity and suburb statistics reports, means that we can help our clients through each step of their property related activities - purchase, sale or otherwise”*.

Highlighting specific attributes of the database that have been useful, Daniela adds: *“property monitor functionality allows us to be proactive with our client base and create a level of professional knowledge that builds client loyalty essential to any successful business”*.
